A full-featured free-to-use version of AutoCAD, called AutoCAD LT, was made available in 1999, but its features were limited, and it did not support 2D or 3D graphics. AutoCAD LT was discontinued in 2011. A previous free version, AutoCAD 2002, was made available in 2001 but with limited features and functionality. AutoCAD has been a leading CAD application since its release in 1982. Its sales peaked at about 100 million USD in 2008 and at about 50 million USD in 2013. The AutoCAD 2017 family includes AutoCAD LT, AutoCAD for Windows, AutoCAD Web and AutoCAD 360, a cloud-based solution that has been used by over 600,000 users since 2015. AutoCAD offers advanced features such as parametric design, 3D modeling, drafting and annotation, mathematical and logical modeling, creating and optimizing plant floor plans and creating 3D models for construction, and animation. For electronics design, it also offers PCB (printed circuit board) design, IC (integrated circuit) design, FPGA (field programmable gate array) design, and passive components design, as well as device drivers. AutoCAD is supported in 15 languages. AutoCAD is available as a desktop application for Windows, macOS, Linux, Unix, and on mobile devices. AutoCAD Mobile was released in 2011 and it is no longer supported. AutoCAD also runs as a browser app, desktop app, or as a cloud-based solution, called AutoCAD 360. In addition, AutoCAD is available as a subscription service (AutoCAD 360). In 2019, Autodesk acquired Trinus Engineering, a leading mobile user experience design and development company. Forum: The Autodesk forums are a free online community dedicated to sharing knowledge and best practices among Autodesk users. Autodesk provides forums for topics and projects related to AutoCAD and AutoCAD LT, with individual forums for specific product topics. The forums have over 200,000 registered members and growing. There are over 31 million posts and more than 11 million messages since the forums were introduced. Autodesk Labs: Autodesk Labs is a community of engineers and technical experts who make it easier to get things done and accelerate development by providing automated solutions, offering best practices, innovative approaches, and time-saving shortcuts.
