Business Profile The overall look and feel of the program is clean and professional, with a layout that is easy to follow. The directory can be opened from the main window itself, allowing you to open a new subscription from a specific directory or direct an existing one to a new location. Each of the contacts comes with a QR Code, so you don't have to worry about sending long emails to find the right client. Search for Contacts, Add

Contacts, Send Email, Manage After you log in, you'll find the contact directory set up in a similar way to the one in your contact list; all of the contacts will be listed in alphabetical order, with the details like name, email, and phone number. Each contact has an eye icon, so it's easy to open their profile, as well as to view their contacts. If you open the contact directory, you'll find the search box at the top left hand side, letting you find contacts based on their first and last name, company name, title, industry, location, and industry, as well as the alphabetical order. If you choose the search button, you can search for contacts with the keyword you entered at the start. In the category column, you can place markers for the categories your contacts are currently involved in. You can add contacts by selecting the button in the contact list. All the necessary information is available, including the company name, industry, phone number, address, position in the hierarchy, email, and even the person's title in the corresponding company. You can also add a phone number if necessary. Add Contacts and Convert Contact to Lead The contacts list can be imported from your contact list, or you can simply add contact in the directory if it doesn't already exist. You can convert
