What's New In AutoCAD?

Discover valuable business insights in your information. Expose your CAD drawings as an AI-powered representation of your business model. Get to the truth quickly by incorporating AI insights and user feedback, and understand what's true and false from your analysis. (video: 1:40 min.) Navigate efficiently in your drawing with new, live-enhanced layers. The new Layers Manager can quickly see and access layers in live or static drawings, reorder them, hide or show them, and combine multiple layers into one. (video: 2:45 min.) Increased Productivity and Safety: New dynamic endpoint for additional planning tools. You no longer have to press the new Product Key to gain access to the new Drawing Manager. Just open the task bar and find it on the right. (video: 0:40 min.) Export to a second drawing at the click of a button. Export your drawing to a second drawing directly from your keyboard. No extra steps required. Just press the new CTRL+E (Export) button. (video: 1:40 min.) New collaborative options for teams. Create projects and group tasks, like conversations in chat. And make sure everyone is always on the same page when viewing or sharing a drawing. (video: 1:20 min.) New profiles for the OSD. Now you can customize your drawing experience and get the information and tools you need. New platform for users to quickly create add-ins. Extend the capabilities of AutoCAD by creating third-party tools, and make them easy for others to access in the Autodesk Add-in Directory. (video: 2:15 min.) Repurpose your drawings into 3D models. Copy your model to give it to someone else, or open it as a STL file that can be used in other programs. (video: 1:30 min.) Integration for GitHub. Automatically check your source code in GitHub for code and issue updates. And share changes directly to the drawing. (video: 0:30 min.) New data types: Extensible data model with complex data types. No need to convert your data to the old SCRTPAD format, and use no-code tools to manage all types of data. Comprehensive improvements to raster layers. All existing raster layers in your drawing can be imported or exported. Create and edit new raster
