System Requirements For Elden Ring:

1. An Internet connection is required to play 2. Save the game on your computer for a later date The last of my challenges for Trion, I've been hearing about this game since it first came out. I didn't really feel like giving it a shot, mainly because I didn't really know what to expect, but luckily, Trion came out with an amazing promotion and I'm glad they chose to give out this early beta on my server. If I ever need to relax and have some more time to myself, this is the best place to come
