Testimonials Date: January 20, 2007 To: Anonymous Western Arms Customer Thanks for your order! -- I ordered some eqium dot 6 Shot line yesterday. they arrived today and the quality seems good. - basicly I was used to buying from mfg.com. the performance was there but they've got issues with factories and shipping etc. Went to check them out was not impressed. So glad I switched to west arms. ordered your "kakumu" isa with the varget for the family. will do my best to work with varget, and the family. I am so impressed. - April 12, 2007 My son had his first match today. He shot a 800ft group at 30yds with his Ruger 9mm. He shot like a pro. The md holster is the best. It looks very nice. He shot it all day and had trouble with it wearing down the front of the belt. He will be back for the next, thanks for letting him shoot. Gary Myron. - May 10, 2007 Searched for a good holster for my wife after watching you on the range. Recieved it today, really nice leather holster with a little Velcro, she loves it and it will replace her current Dr. Lifton Stinger holster. - May 17, 2007 I recently decided to order two of our Hi-Point.380 Attachments Holsters from you. First, the Lightweight™ Para-2 Billet version with the stock mounted to the holster as a pommel is very comfortable and an excellent fit for the gun. It also has a extended safety which makes the gun easier to carry and to shoot, it doesn't want to fall out of your hand. The CSA version of the same holster with the safety set inside the holster is also very good. In both cases your lifetime warranty applies. I have the CSA holster entirely. I did not like the fit of the company supplied "Mil-spec" holster they sell on their web site. I could not find anyone in the local retail markets to try to repair the gun for me. I am a long time premium customer with Western Arms, you have always been very good. I am so pleased with the CSA Para-2 holster for a Glock.380 that I decided to order one for my brother. He is very mechanically inclined and I did not want
